**“Creativity is contagious,
pass it on”**

Albert Einstein

A photograph of a group of swans and a pink flamingo on a rocky shore. The flamingo is the central focus, standing on its long legs. Several white swans are scattered around it, some standing and some in flight. The background is a cloudy sky over water.

“The value of identity of course is that so often with it comes purpose.”

The correct product the right price delivered on time.

Legacy Transfers & Storage

What does 200 square feet cost you?

Leda Communications has digitized and archived thousands of assets, preserving content from formats such as 1" Type C, Betacam SP, Digital Betacam, DVCPro, HDCAM, 1/4" Reels, DAT & DA-88 cassettes. You name the format we have you covered.

Let our expert team help protect and shrink your video library today.

Video cassettes have a limited lifespan, degrading with time and storage conditions.

With fewer working video cassette recorders (VTRs) available and the parts to fix them becoming non-existent, the cost of digitizing SD and HD video materials is expected to rise over the next few years.

Now is a great time to think about what to do with your old video tape before its too late.

Captured as QuickTime Apple ProRes, we transfer your content to your choice of storage device with the option of a matching viewing copy with time code to make it easy to select footage for use in the future.

“History is not a burden on the memory but an illumination of the soul.”
